Professional Summary

Bioinformatics scientist specializing in multi-omics integration, with over 8 years of experience developing algorithms and automated workflows for transcriptomics, epigenomics, genomics, single-cell and spatial transcriptomics. Focused on transforming complex biological datasets into meaningful discoveries through following the best practices in the field. Successfully published in high profile journals such as Nature, Nature Genetics and Nature Neuroscience.

Education

10/2012 - 04/2016 | **Tsinghua University**, Beijing, China
Ph.D. in Bioinformatics (automation department)

10/2009 - 07/2012 | **Central South University**, Changsha, China
M.Sc, Computer Science (Bioinformatics)

10/2008 - 07/2009 | **Changsha, China**, Changsha, China
Certificate, Chinese (Mandarin) language

10/2003 - 06/2008 | **Ecole Nationale Supérieure d'Informatique (ex I.N.I)**, Algiers, Algeria
Eng, Computer Science (Computing Systems)

Professional Experience

08/2023 - Present | **Sidra Medicine (Perinatal and Reproductive Health Division)**
Staff Scientist - Assistant level
Lead the bioinformatics analysis, development and validation of different bioinformatics pipelines for the analysis of different types of omics data including: Transcriptome, microbiome, epigenomic and genetics data. Get involved in grants applications, research papers and several academic activities. Training and supervision of junior staff members.

09/2020 - 07/2023 | **St. Jude Children's Research Hospital (Center of Applied Bioinformatics, Epigenetics group)**
Sr. Bioinformatics Research Scientist
Develop standard epigenetics data analysis and reporting pipelines including CUT&RUN, ATAC-seq, ChIP-seq, WGBS, Hi-C and single-cell data analysis pipelines (scRNA-seq, scATAC-seq, spatial transcriptomics). Develop ML methods for pediatric leukemia samples classification. Present in different educational seminars, scientific events and conferences. Collaborate with different PIs. Research topics: Neuroscience, Cancer and basic molecular science projects.

10/2016 - 09/2020 | **Harvard Medical School (Yi Zhang lab)**
Postdoctoral research fellow
Lead and co-lead different research projects at Dr. Yi Zhang's lab. Developed several specialized custom pipelines for the down-stream analysis of in-house low-input sequencing methods. Developed/applied several statistical and machine learning methods (e.g. HMM, ML, regression) to help in processing/interpretation of the data. Processing of different omics data (RNA-Seq, ChIP-Seq, CUT&RUN, ATAC-Seq, scRNA-Seq, WGBS, RRBS). Develop single-cell RNA-seq and spatial transcriptomics (MERFISH) analysis standard. Research topics: Preimplantation Embryo Development, Neuroscience (addiction).

LLM Training & Evaluation Experience

1. **Expert solutions for hard bioinformatics problems** (Writer/Reviewer). Authored and reviewed human expert solutions to challenging bioinformatics tasks for LLMs.
2. **Black-box bioinformatics function design** (Top 50 contributor). Designed hidden bioinformatics functions that LLMs had to reverse-engineer.
3. **Synthetic-data bioinformatics challenges** (Top performer). Designed hard bioinformatics problems built on synthetic data, with detailed task descriptions and grading rubrics.
4. **Real-world-data bioinformatics challenges.** Designed hard bioinformatics problems built on real-world datasets, with detailed task descriptions and grading rubrics.
5. **Prompt-driven bioinformatics Docker images** (Writer/Reviewer). Designed and reviewed optimized bioinformatics Docker images built from natural-language prompts.

Honors & Awards

2024 | **Best Poster Award**, MENA Microbiome Conference

2022 | **2nd Place, St. Jude BioHackathon**, St. Jude Children's Research Hospital

2019 | **Scientific Retreat Best Poster Award**, Harvard Medical School

2013 - 2016 | **Chinese Scholarship Council Scholarship**, Chinese Scholarship Council

2015 | **Best Poster Award**, Genomics Frontiers Symposium

2012 - 2013 | **Tsinghua University Scholarship**, Tsinghua University

2018 | **Top 10 Chinese Bioinformatics Methods in 2018**, Proteomics and Bioinformatics Journal

Patents

2018 | **Patent: Chromatin interaction difference analysis method and system**
CN201810069870.2

2015 | **Software Copyright: 3CPET – Prediction of chromatin interaction maintaining complexes**
2016SR110295

Teaching & Seminars

2024 | **16S Data Analysis Workshop**, MENA Microbiome Conference
Workshop on 16S rRNA data analysis, Doha, Qatar.

2020 - 2022 | **Machine Learning Educational Seminars**, St. Jude Children's Research Hospital

2020 - 2023 | **Bioinformatics (Epigenetics & Single-Cell) Educational Seminars**, St. Jude Children's Research Hospital

Technical Skills

Programming and scripting languages: R, Python, C++, Bash, CSS, AWK, LaTeX, JavaScript, HTML.

Workflow management: Bpipe, Nextflow, Docker, R targets pipeline.

Machine learning and Data science: Keras, scikit-learn, Caret, tidymodels.

Genomics & Genetics: WGS analysis, GATK, ONT long-read analysis, GWAS, rare-variant burden analysis, mobile element variant analysis.

Transcriptomics: bulk RNA-seq (STAR, Kallisto, RSEM), miRNA profiling, machine learning classification from expression data.

Epigenomics: ChIP-seq, CUT&RUN, CUT&TAG, ATAC-seq, WGBS, RRBS, Bismark, DNA methylation arrays (EPIC v2, ChAMP, limma, ComBat).

3D Genome: Hi-C, ChIA-PET, chromatin interaction methods (FIND, 3CPET, HiC-3DViewer).

Single-cell & Spatial: scRNA-seq, scATAC-seq, multiome, CellRanger, Seurat, scanpy, spatial transcriptomics (MERFISH).

Microbiome & Metagenomics: 16S rRNA amplicon analysis, shotgun metagenomics (bioBakery), viromics (ViroProfiler), phage-host interaction, resistome analysis, microeco, microbial networks (SPIEC-EASI, NetCoMi).

Multi-omics Integration: cross-omics network analysis integrating microbiome, transcriptome, methylation, metabolome, proteomics, and clinical data.

Core Tools: samtools, sambamba, bowtie, pysam, R/Bioconductor (Rsamtools, rtracklayer, GenomicRanges, GenomicFeatures).

Cloud: Google Cloud, AWS.

Spoken Languages

Arabic (Native), French (Advanced), English (Advanced), Chinese (Intermediate).
